

Our brother was a U S Marine Corps veteran with extreme physical and mental complexities. The staff of Advocate Guardianship and Mary Bouman cared very much about our brother, working with me, and his court appointed guardian, as a Case Manager. With their assistance, we were able to promote a sober, non-smoking and supportive environment which added length and a real quality of life for my little brother. Mary Bouman and her staff would check on him as often as needed, and they saved his life more than once. Our combined efforts helped him keep his beloved cat and live as independently as possible. We, my family and I, thank the folks at Advocate Guardianship for not only the care but the compassion they had for our brother. May you be rewarded in Heaven for your efforts.

Thank you,

Jack Sumner
